The answer to the logistical needs of a market in constant growth.

In response to these needs, TAG emerges, a Mexican company with vast experience in the field, dedicated to solving the national and international logistical challenges of our clients.

Through a personalized, flexible and highly competitive service, we offer solutions to your solid and liquid warehousing needs, repackaging, maquila services and distribution of merchandise.

We are part of the success of our customers. Here some companies that have trusted in us.

***Logistics is: "the movement of the right goods in the right amount,
to the right place at the right time".***

(Franklin B. Enrique 2004)

TAG LOGISTIC SYNC

Timing is a concept of vital importance in logistical matter and in TAG we understand this.

We use methodologies that allow a better synchronization of the supply chain, sharing the information, giving data about your product and presenting detailed reports of all your operations, allowing an optimal supply and thus reducing the level of immobilized assets.

YOUR PRODUCT IN GOOD HANDS

Through our vast experience we have developed numerous strategic alliances with companies and suppliers that allows us to improve our costs, service and response time.

Guaranteeing security and punctuality in the delivery of your merchandise at any time.

***Traceability and security
throughout the supply chain.***

OUR SERVICES

We are a key player in the value chain of your company by offering high quality logistics solutions, customized to the needs of your project.

We provide personalized attention to our clients.

WAREHOUSING 01

We have a large warehousing capacity available for your operation, as well as stainless steel containers tanks for the right storage and handling of your liquid products.

Our great flexibility allows us to offer storage services anywhere in Mexico fulfilling the needs of each of our customers.

We offer dedicated or multi-client warehouses with flexible and variable schemes, inventory management, entries and location control, assortment and departures (FIFO).

DISTRIBUTION CENTER OPERATION 02

We control and manage 100% of our client's operations.

DISTRIBUTION 04

We have the ability to design, plan and execute the procedure for shipping your products ensuring an on time delivery.

03 REPACKAGING

In TAG we have the ability to repackage our customers products to any required presentation. We have the necessary facilities and trained personnel to repackage liquid and solid products including, among others, Kosher and USP.

05 MAQUILA SERVICES

We offer labeling, components sorting, repackaging and merchandise conditioning.

DEDICATED WAREHOUSES

Whatever your needs are, we are able to grow as much as your project requires, anywhere in Mexico.

In TAG, we help our customers distribute their products in the conditions of time, volume and presentation that their customers require and for this, we have the ability to receive your product or raw materials in virtually any presentation from anywhere in the world.

TAG

“Intermodal transport”

LOGISTIC SYNC

HOW DO WE DO IT?

We receive our client's product by air, land or sea and we move it intermodal to our warehouses where we store and protect it in our storage or tank areas; we proceed to repackage it in the necessary presentation and finally distribute it to the locations where it is required.
